PROFESSIONAL EXPERIENCE

IT Support Specialist (L1-L3) | Web Developer

Jun 10 2024 - Present

Union Square House Real Estate Broker L.L.C - Dubai, UAE

- Developed and deployed high-performance real estate websites, landing pages, and lead-generation funnels using Next.js, React, Tailwind CSS, HTML5, CSS3, and JavaScript (ES6+), optimized for SEO, Core Web Vitals, and mobile-first design
- Built full-stack web applications including CRM systems, IT inventory management systems, and internal business portals with secure authentication and role based access control (RBAC)
- Designed, developed, and consumed RESTful APIs; implemented API integrations and backend services using Next.js API routes, PHP/Laravel, and .NET
- Designed and managed SQL Server databases, including data modeling, schema design, stored procedures, indexing, query optimization, and performance tuning
- Integrated BioTime biometric attendance tracking APIs for real-time data synchronization, reporting, and dashboard visualization
- Implemented authentication, authorization, session management, and access controls for internal and customer-facing applications
- Optimized applications for performance, scalability, security, and maintainability, following best practices, clean architecture, and version control (Git)
- Collaborated with cross-functional teams to translate real-estate business requirements into scalable technical solutions, supporting sales, operations, and management workflows

Software Engineer(L3)

Oct 11 2022 - Dec 1 2023

Claysys Technologies - Infopark, Kerala, India

- Developed and enhanced .NET (C#, ASP.NET) applications and Windows Services, integrating with CRM systems to automate business workflows and data synchronization.
- Worked with databases including SQL Server and MySQL for data management, queries, and application integration.

- Collaborated with business stakeholders, IT teams, and QA to gather requirements, implement enhancements, and support production deployments.
- Performed unit, integration, and end-to-end testing, supported release management, and handled production troubleshooting to ensure system stability.
- Utilized Visual Studio, Git, and Azure DevOps for development, version control, and deployment workflows.
- Integrated applications with eLeads CRM to automate lead management, customer data synchronization, reporting, and background processing

Full Stak Developer

Jan 27 2021 - Oct 31 2021

Mosons Enterprises - Kannur, Kerala, India

- Production support and application enhancements for e-commerce and ERP projects (PHP Laravel, ASP.NET)
- Managed database work in SQL Server, hosted applications on DigitalOcean VPS and handled server access via PuTTY
- Coordinated with back-end developers, front end developers, quality assurance testers

Data Report Analyst

Feb 03 2020 - Jun 06 2020
